Brian Soper (Highway) –

- We have a few paving jobs to finish up before we lose the weather advantage. Those will happen weather permitting the week of the 4th of October. Scott Gulf will be paved the week of the 11th all dependent on weather.
- East Brutus St. pavement preservation project bid have been opened. The bids are higher than expected we will be rebidding in hopes for better bid results in early December. With some discussion the state has awarded us an additional \$450,000 to ease the budget restriction.
- Sam Adams culvert replacement is under way and should be completed with the road reopened to traffic the week of the October 4th. The paving to follow.
- Stripping has been completed for the season
- We have received our first reimbursement for the CHIPS/EWR/Pave NY which was 3.8m with the next to be submitted around 3.4m for the December payment.
- Ridge Rd and Ledyard Rd bridges are getting pushed back on the completion date due to steel delays.
- I have been working with HR to get all of the Highway caught up with the mandatory trainings. We will have this done on the 14th of October.
- Soil and Water has been assisting Highway with flood mitigation on every aspect from design to completion of the projects along with grant monies to help highway stay on budget. They were a crucial part of Scott Gulf Rd being completed on schedule.
