### **Additional Information**

We are strongly encouraging the public to practice safe social distancing by staying six feet apart from others both indoors and outdoors, wearing a face covering both indoors and outdoors when safe social distancing (six feet apart) cannot be maintained. The more gatherings we attend, the more times we frequent stores, the more activities our children participate in, all presents an increased risk of exposure.

As we have stated in a previous press release, in order to limit the spread of COVID -19, gatherings of 50 or more people are prohibited by law in public and private venues, except where specifically identified by New York State such as a restaurant or house of worship, which have their own regulations. Use of face coverings, except for persons medically exempt, is required of all people over age 2 in public settings indoors and outdoors when safe social distancing is not performed. Business owners and operators are required to uphold these regulations or deny admittance to the business. Enforcement action against violators has begun.
