

Cayuga County Water and Sewer Authority

7413 County House Road, Auburn, NY 13021

Telephone: (315) 252-0920

Fax: (315) 515-3026

Spring 2019

Dear Water Customer:

Enclosed you will find the 2018 **Wayne County Water and Sewer Authority's Annual Water Quality Report** for the service area that supplies water to your property.

The report is fairly self-explanatory. However, if you have any questions regarding the report or the data, please contact us.

By law we must provide every customer the opportunity to review the Annual Water Quality Report. The Wayne County Water and Sewer Authority is our provider of potable water and the annual report is based on their treatment and testing of the water that is supplied to the Authority for distribution.

The Wayne County Water Authority also samples for all the below.

Westbury Water District

Contaminant	Violation	Sample Date	Result	Units	MCL	MCLG	Sources in Drinking Water
Copper	No	8/17/16	0.0815 ¹ Range 0.023-0.088	mg/L	AL=1.3	1.3	Corrosion of household plumbing systems; Erosion of natural deposits; leaching from wood preservatives.
Total Trihalomethanes (TTHMs - chloroform, bromodichloromethane, dibromochloromethane, and bromoform)	No	8/1/18	63	ug/L	80	n/a	By-product of drinking water chlorination needed to kill harmful organisms. TTHMs are formed when source water contains large amounts of organic matter.
Haloacetic Acids (mono-, di-, and trichloroacetic acid, and mono- and di-bromoacetic acid)	No	8/1/18	16	ug/L	60	n/a	By-product of drinking water disinfection needed to kill harmful organisms.

1 – The level presented represents the 90th percentile of the 5 sites tested. A percentile is a value on a scale of 100 that indicates the percent of a distribution that is equal to or below it. The 90th percentile is equal to or greater than 90% of the copper values detected at your water system. In this case, five samples were collected at your water system and the 90th percentile value was the average of the first and second highest values (0.0815 mg/l). The action level for copper was not exceeded at any of the sites tested.

We look forward to continuing to serve you as a customer of the Water Authority.

Respectfully submitted,

Cayuga County Water and Sewer Authority
