### **At no-charge COVID-19 testing sites**

The Cayuga County Health Department would like to notify the public of at no-charge testing sites available to residents at this time. While these testing sites are not located in Cayuga County, these are an option for residents who do not want to pay for testing. The Cayuga County Health Department is advocating for at no-charge testing to be available in Cayuga County. As we await for this to happen, we want to make sure residents are aware of their options.
