COVID-19 Testing Results Reminder

Here in Cayuga County there are currently various locations for testing of COVID-19 such as health care provider offices, pharmacies, urgent care centers and testing clinics.

We would like to remind the public that no matter where you are tested and the type of test used, **a positive result is a positive result** regardless of any follow-up testing within the next 10 days, which is the number of days in which a person would be placed into isolation.
