The Cayuga County Health Department is participating in the state-wide #VaxForKids program which encourages children ages 5 and up to get their COVID-19 vaccine as a means to prevent serious illness. On November 3rd, 2021, the CDC authorized the Pfizer COVID-19 vaccine for children ages 5 – 11 years-old. On January 5th, 2022, the CDC recommended the Pfizer booster dose for ages 12 and up 5 months after they receive their second dose.
