Auburn Community Hospital & Cayuga County Health Department to Engage the Community in Health Care Needs Assessment Survey.

For Immediate Release – Auburn Community Hospital (ACH) and the Cayuga County Health Department are engaging in a comprehensive community health needs assessment and development of a community health improvement plan. Our organizations are asking Cayuga County residents to participate in a community-wide health survey where residents can anonymously share health issues that matter to them.

The goal of this survey is to improve the quality of health and life in our county. The results gathered from your responses will be used to help healthcare leaders develop a strategic plan to aid in improving and advancing the local healthcare services while also connecting people to community-based services and resources.

In addition to the survey being available online, staff will be attending community events and delivering hard copies of the surveys to businesses and organizations throughout the county.

The survey is available in English and Spanish and will take about 15 minutes to complete, and can be found at <http://rmsresults.com/CayugaCHA>.

Auburn Community Hospital and the Cayuga County Health Department have partnered with Research & Marketing Strategies, Inc. (RMS), a third-party market research firm, to conduct this online community survey. Should you have any questions or comments about the survey or the survey process, please connect with the research team, RMS, by calling 1-315-635-9802.

[Auburn Community Hospital](#) is the largest employer in Cayuga County, with a workforce of over 1,100 employees. The Hospital has a combined medical staff of more than 300 medical professionals and multiple primary care sites. Today, ACH is a Health Care Delivery System that includes the Hospital, an 80-bed Long Term Care and Rehabilitation Center, 3 Urgent Care Centers, as well as Primary Care and Specialty Care Services.

[Cayuga County Health Department](#) is a team of caring, committed professionals who seek to improve the health, prevent disease, and provide essential health services with the community as our partner. We promote and protect the health and well-being of the individuals, families and the community we serve.
