

MINUTES
HEALTH & HUMAN SERVICES COMMITTEE
Thursday, February 13, 2020, Chambers – to follow Government Operations

CALL TO ORDER: By Hon. Elane Daly, Chair called the meeting to order at 7:20PM

MEMBERS: Legislators Michael Didio, Tricia Kerr, Timothy Lattimore, Heidi Nightengale, Hans Pecher, and Charlie Ripley (Vice Chair)

OTHERS: Chair Aileen McNabb-Coleman, Legislators Keith Batman, Chris Petrus, Assistant County Attorney Richard Graham, Director of Office for the Aging Brenda Wiemann, Public Health Director Kathleen Cuddy, Confidential Secretary to the County Attorney Brittany Massi, Director of Community Services Ray Bizzari, Deputy Director of Community Services Christine Bianco, Staff Development Supervisor Jennifer Marshall, Citizen Reporter Mary Catalfamo and Deputy Clerk of the Legislature Amanda Morgan

MINUTES TO APPROVE: January 9, 2020, Motion by Ripley, 2nd by Nightengale, all in favor

Motion by Ripley, 2nd by Kerr, all in favor.

APPOINTMENTS:

Office for the Aging Advisory Board

Arianna Halter, 89 York St., Suite 1, Auburn, NY 13021, Term – 3/1/20 to 12/31/21

Shari Weiss, 2119 West Genesee St. Rd., Auburn, NY 13021, Term – 3/1/20 to 12/31/25

DISCUSSION: Bruce Natale, re: Polystyrene foam ban

Natale says it will be passed in April most likely by the state and would not go in effect until January of 2022. He says if we passed the proposed local law then we could have an issue with ag and markets. He says that he would suggest waiting for the state.

Natale also asks if there is anything we can do to push tick awareness and prevention.

DEPARTMENT UPDATES FOR COMMITTEE:

Brenda Wiemann (Office for the Aging) –

- Holding several in-services for continuing education: Southern Tier Independence Center Nursing Home Transition Diversion Program, Community Action Program Kinship Care program, NYSARC Trust Services, HomeHeadquarters Housing Assistance – includes OFA direct service staff and invitations to other community professionals in the field.
- March for Meals March 16th – 20th - An opportunity for Legislators to gain firsthand experience with our Senior Nutrition Program. We welcome your participation!

Motion by Ripley, 2nd by Pecher, all in favor

OFA:

2-20-HH-1 Authorizing the renewal of the Lease Agreement between PFI Housing Company of Auburn, Inc for a portion of the premises located at 149 Genesee St., Auburn, New York (“Edward T. Boyle Center”) for the Long Term Care Office

2-20-HH-2 Authorizing the Chair of the Cayuga County Legislature and the Director of the Office for the Aging to sign annual contracts with various subcontractors

Kathleen Cuddy (Health) –

- Public Health 2019 Statistical Report
- Communicable Disease Update: Corona Virus and Hepatitis A
- PH Asset Distribution Drill
- Other

Discussion:

Cuddy says they did get some feedback from restaurants and they do use Styrofoam and they were talking about the cost of it. She says that they will bring up the Lyme disease and need to be more aware of it. Kerr asks if there are signs that are out in wetland areas about ticks. Cuddy discusses meeting the mandates and areas we could do more work in, but simply don't have time to do it.

Ray Bizzari (Mental Health/Social Services) –

Highlights:

- We submitted a 2nd SAMHSA System of Care grant: 4 year \$3.7 million
- Liberty Resources was selected via RFP to provide adult respite...they operate 3 such programs in the region that we have access to as well so we get this additional capacity and the ability to manage overflow.
- Monika is doing a great job working the HEALing Communities study/grant. She can provide an update to HHS if the Committee is interested.
- We recruited a "reserve accommodation" foster home to accept children removed via neglect petition or via parental consent for a 30 day stay. During that stay, the Department works to determine the most appropriate track to take. While a removal is a significant trauma event, we hope this strategy helps. We will be bringing a resolution to hire a Permanency Specialist

Stuff to Pay Attention To:

- We continue to discuss the question of oversight for the jails behavioral health programs.
- The Medicaid cost shift to counties...
- Impact of other proposals in the Governor's budget on OCFS/OTDA funding
- Family First, SNAP changes
- Continue to work on Value Based Payment readiness/implementation

FYI:

- Setting up tele-psychiatry capability for the clinic
- By the time you read this I will have met with Aileen and Elane about the succession plan for the departments
- We've resolved the relevant OMH and State Education issues around the school threat protocol and will be publishing/training shortly

I. Introduction

The purpose of this report is to provide a summary of activity during 2019 in program areas within the Health Department.

The program areas to be included are:

- ✓ Community Health Services (Public Health)
- ✓ Children with Special Health Care Needs
- ✓ Environmental Health
- ✓ WIC-Women, Infant & Children Supplemental Nutrition Program

This document will serve as a “snapshot” for the Department and may also demonstrate trends (anticipated and unanticipated) for Administration to consider when planning for 2020/2021.

II. Community Health Services

The Community Health Services Division offers nursing, health promotion and education, health guidance, injury prevention programs, prenatal and postpartum programs. It assists in the prevention and control of communicable diseases, immunization, promotion of dental health, lead poisoning prevention, breast & cervical cancer screening, prostate cancer screening and chronic disease prevention. The Department also receives nearly one million dollars in grants from NYS Department of Health to support its work, excluding WIC.

A. Clinics:

1. **Immunization Clinics:** are held weekly by appointment. They serve both adults and children. To promote immunization of children the NYSDOH provides no cost vaccine through the Vaccine for Children program (VFC) to Health Departments and Medical Providers to use with qualifying children. These clinics are held year round. In the last quarter of 2015, the Health Department began offering Vaccine for Adults (VFA) for qualifying people. Participating client information is entered into NYS Immunization Information system (NYSIIS).

| | 2015 | 2016 | 2017 | 2018 | 2019 |
|-------------------|------|------|------|------|------|
| Clinics Held | 38 | 44 | 55 | 71 | 74 |
| Clients Served | 478 | 349 | 263 | 656 | 544 |
| Vaccines provided | | | 669 | 1182 | 1647 |

2. **Jail Clinics:** are held monthly at the Cayuga County Jail. They provide immunization services to a congregate vulnerable population. The vaccines are provided through the federally funded Vaccines for Adults (VFA) program.

| | 2017 | 2018 | 2019 | 2020 | 2021 |
|--------------------------------|------|------|------|------|------|
| Total Number of vaccines given | 536 | 146* | 372 | | |

*Clinics were not held June 2018-Dec 2018

B. Programs:

1. **Communicable Disease Program:** This program provides surveillance and investigation of reportable diseases for all county residents.

| | 2015 | 2016 | 2017 | 2018 | 2019 |
|--|------|------|------|------|------|
| Cases Investigated (Lab Referral & Other) | 1424 | 1153 | 1431 | 1609 | 1416 |

2. **Tuberculosis Control Program:** The goal is to minimize the incidence of disease through appropriate surveillance, investigation and treatment of all suspect cases of latent and confirmed pulmonary TB reported to the agency.

| | 2015 | 2016 | 2017 | 2018 | 2019 |
|---|------|------|------|------|------|
| Mantoux Tests Placed in Immunization Clinic & As a result of contact investigation | 132 | 141 | 134 | 167 | 105 |

| Home Visits for Latent TB infection, Directly Observed Therapy (DOT) events, conducted directly by CCHD Staff, or by external agencies and monitored by CCDH, Preventive Therapy, & Assessments per Medical Order | 690 | 52 | 175 | 525 | 6 |

3. **STD/HIV:** Per Article 23 of the Public Health law, the County is responsible for providing diagnosis and treatment of sexually transmitted diseases. The county currently contracts with East Hill Family Medical & Finger Lakes Community Health to provide these services including physical exams, laboratory tests, prescription of medication, education, follow-up for both the individual and contacts, and referrals to the NYSDOH for contact investigation for Gonorrhea, Syphilis and HIV. Clinics are held weekly and by appointment throughout the week.

| | 2015 | 2016 | 2017 | 2018 | 2019 |
|---|------|------|------|------|------|
| Number of STD Clinic Visits | 256 | 235 | 222 | 305 | 255 |

| Number Receiving HIV Post-test Counseling | 0 | 174 | 152 | 109 | 53 |

4. **Cancer Services Program:** The goal of this program is to reduce the incidence of breast, cervical, colorectal, and prostate cancers through early detection and education. It is funded through a grant from the NYSDOH and targets low-income uninsured or underinsured individuals who meet the eligibility profile by age and family history. It provides screenings, case management services and follow-up with private medical providers. Clients diagnosed with breast, cervical or colorectal cancers are enrolled in Medicaid for treatment. While prostate screening is not covered under the grant, we are fortunate to have a local physician who volunteers to provide this service. The program has seen the following activity:

| | 2015 | 2016 | 2017 | 2018 | 2019 |
|--|------|------|------|------|------|
| Number of Clients Receiving Breast & Cervical Cancer Screening | 119 | 76 | 76 | 57 | 75 |

| Number of Clients Diagnosed with Prostate Cancer | 0 | 0 | 0 | 0 | 0 |
|--|---|---|---|---|---|

5. **Healthy Neighborhoods Programs:** A grant funded by the New York State Department of Health this program works to reduce risks within homes related to fire, injury, asthma, lead poisoning, and indoor air concerns. Targeted areas include the City of Auburn, and the Town and Village of Moravia and Town of Locke. The Cayuga County Health Department partners with the Cayuga Community Health Network and local fire departments to conduct in-home assessments to ensure individuals are living in a healthy environment. These in-home assessments are at the owner and or tenant's discretion. Upon evaluation of the living environment, residents may be provided with information, educational materials, supplies to create a more healthy living area and referrals to partnering agencies. Re-visits will be made to those homes in which safety products are provided.

| | 2017 | 2018 | 2019 | 2020 | 2021 |
|-----------------------|------|------|------|------|------|
| Home Visits Completed | 659 | 516 | 355 | | |
| Revisits Completed | 147 | 99 | 95 | | |

6. **Maternal Child Health Services:** A paramount mission of these services to reduce mortality and morbidity of mothers, infants and pre-school children. The skilled nursing visits promote child health, and development, promote mother's reproductive health, promote breastfeeding, and provide health education to parents. Universal referrals are received, clients are contacted by a nurse and connected with appropriate/desired programs and resources.

| | 2015 | 2016 | 2017 | 2018 | 2019 |
|---|------|------|------|------|------|
| Universal Referrals Received- initiated in 2014 | 232 | 248 | 228 | 43 | 139 |
| Number of MCH Referrals | 73 | 111 | 104 | 100 | 89 |
| Number of Nursing Visits | 15 | 60 | 162 | 289 | 166 |

7. **Nurse Family Partnership Program:** An evidence based program for first time pregnant mothers, in which a specially trained Registered Nurse establishes a long term relationship with the mother initiated by the 28th week of pregnancy and extends to the child's second birthday. The program goals include, optimal pregnancy outcomes, optimal child health and development and improved economic self-sufficiency of the family. Research shows, participation in the program can reduce child abuse, reduce length of time on public assistance programs and increase child engagement in educational environments.

| | 2015 | 2016 | 2017 | 2018 | 2019 |
|---|------|------|------|------|------|
| Number of Nurse Family Partnership Participants | 36 | 59 | 44 | 33 | 26 |
| Number of Infants age 0-12 months | 14 | 14 | 20 | 17 | 8 |

| Number of Graduates (completed full 2 year program) | 4 | 10 | 6 | 4 | 7 |

8. **Lead Program:** Reduce the prevalence of elevated blood lead levels in children birth to 18 years through the implementation of a comprehensive Lead Poisoning Prevention Program (LPPP). The program includes: public and professional outreach and education; collaboration with local health care providers to assess children's risk of lead exposure, blood lead testing, anticipatory guidance to prevent lead poisoning, diagnostic evaluation, case management including risk reduction education, nutritional education, environmental interventions, and coordination of services for children less than 18 years with elevated blood lead levels.

| | 2015 | 2016 | 2017 | 2018 | 2019 |
|--|------------------|------|------|------------------|------------------|
| Number of Children Case Managed with Levels Over 15ug/dl | 9 (2 New) | 10 | 8 | 7 (2 New) | 14 (6 New) |
| Number of Children Case Managed with Levels 10-15ug/dl | 25 (6 New) | 21 | 19 | 18 (6 New) | 19 (6 New) |
| Number of Home Visits by Case Manager | 15 | 12 | 7 | 11 | 27 |
| Number of children requiring chelation treatment/ number of rounds of treatment | 1/2 | 0/0 | 0/0 | 0/0 | 1/1 |

*Beginning in October 2019 New York State lowered the threshold for which Health Departments must provide intervention at both the nursing and environmental inspection levels. Previously the blood lead level for intervention was 15mcg/dL it is now 5mcg/dL. Given this new regulation the Health Department will begin collecting statistics in the following manner:

| | 2020 | 2021 | 2022 | 2023 | 2024 |
|---|------|------|------|------|------|
| Number of children followed with blood lead level over 5mcg/dL | | | | | |
| Number of children lead tested by HD staff | | | | | |
| Number of admission visits (Case Management) | | | | | |
| Number of children requiring chelation treatment/number of rounds of treatment | | | | | |

9. **Women, Infants and Children Supplemental Food Program (WIC):** This program is open to pregnant, breastfeeding and post-partum Women, Infants (birth to 1 year) and Children (1-5 years) and provides nutritious foods, information on healthy eating, referrals to health care and other services. WIC supports breastfeeding, supplies breast pumps and has a breastfeeding peer counselor program to help women meet their breastfeeding goals. WIC also offers Farmer Market Coupons to families during the summer months. Clinics are held daily in Auburn and once a month in Cato and Moravia. Applicants must meet income eligibility or receive Medicaid, SNAP or TANF to qualify. Please go to WICStrong.com for more information.

III. Children with Special Health Care Needs

The Children with Special Health Care Needs program provides information, evaluations, referrals and guidance to families with children who may have a disability or developmental delays ages 0-21. Program involvement may include evaluation and tracking of children at risk for delays through the Child Find program or admission into the Early Intervention Program. The Cayuga County Health Department is the fiscal administrator of the Pre-school Special Education Program for children age 3-5.

A. Child Find: Statewide program that tracks infants and young children (ages birth through 2 years) who are at risk for physical and developmental disabilities in order to assure that diagnostic and treatment services are available to and utilized by the families of those at risk infants and children as soon as disability is evident.

| | 2015 | 2016 | 2017 | 2018 | 2019 |
|--------------------------------------|------|------|------|------|------|
| Number of Children Active in Program | 139 | 122 | 137 | 133 | 175 |

B. Early Intervention (0-3): This program (EI) ensures that infants and toddlers with developmental delays or disabilities and their families receive needed services through provision of case management and the individualized family service plan (IFSP). The program provides screening and evaluation of the following areas of development: cognitive, physical, communication, social/emotional, and self-help skill development. Any infant or child from birth up to three (3) years with developmental delays or disabilities who resides in Cayuga County is eligible for evaluation and potential services. There is not cost for eligible children to participate in Early Intervention.

III. Environmental Health Services

The Environmental Health Division is responsible for four major programs. They include Public Water Supplies, Food Services, Community Environmental Health, and Rabies Prevention.

A. Public Water Supplies: This program's goal is to minimize potential health hazards related to the quality and quantity of public water supplies. The Environmental Health Division works to ensure that all public water systems, community, non-transient non-community, and non-community, are in compliance with Part 5 of the NYS Sanitary Code. The Division investigates reports of water-related illnesses, issues Boil Water Orders and other notices or advisories when necessary, provides information to the water suppliers regarding system security and emergency preparedness, and provides technical assistance to water suppliers regarding water quality and water treatment. In addition, program staff assist water suppliers in the creation of their Annual Water Quality Reports, conduct inspections of public water supplies and issue written reports, collect surveillance sampling of public water systems, respond to complaints and conduct investigations, provide information to the water suppliers regarding watershed and wellhead protection, approve water system operators, perform enforcement actions for violations, review and approve plans for water system improvements or modifications.

| Number of Plan Reviews | 1 | 3 | 0 | 0 | 4 |

B. Food Service Establishments: This program's goal is to prevent illnesses related to food preparation and consumption. The Environmental Health Division issues permits to all food service establishments in Cayuga County. Program staff perform inspections of food service facilities, provide plan review and approval for new or modified food service facilities, investigate food borne illness outbreaks, and investigate food service facility complaints. The Division also provides public information and education concerning food safety issues, enforces the requirements of the New York State Sanitary Code as well as the New York State Clean Indoor

Air Act at food service facilities, and answers questions from the public regarding food protection in the home.

C. Community Environmental Health: This program's goal is to prevent environmentally caused illnesses and injuries to the public. The Environmental Health Division regulates mobile home parks, children's camps, hotels, motels, campgrounds, agricultural fairgrounds, migrant labor camps, swimming pools and bathing beaches. Program staff review and accept plans for realty subdivisions, new sewage disposal systems, or replacement or repair of existing sewage disposal systems, and review inspection reports of sewage disposal systems and issue permits for all sewage disposal systems in Cayuga County. In addition, the Division provides technical advice to private well owners, investigates public health nuisances, enforces the Clean Indoor Air Act and the Adolescent Tobacco Use Prevention Act, and manages a residential lead program. Program staff also provides information to the public regarding West Nile Virus, indoor air issues, mold, radon, and Lyme disease.

D. Rabies Prevention: The Environmental Health Division manages a rabies prevention program, the goal of which is to prevent the occurrence of rabies in humans and animals throughout Cayuga County. The Division responds to reported animal bites and potential exposures, consults with medical personnel for follow up on post-exposure medical treatment when necessary, submits suspected animal specimens to the New York State Laboratory in Albany for rabies analyses, and monitors 10-day confinement and 6-month quarantine of domestic animals involved in human contact or contact with potentially rabid animals. The Division also sponsors free rabies vaccination clinics at least 3x a year, for dogs, cats, & ferrets owned by Cayuga County residents.
