Priority	Focus Area (select one from drop down list)	Goal Focus Area (select one from drop down list)	Objectives	Disparities	Interventions	Family of Measures	Projected (or completed) Year 1 Interventions	Projected Year 2 Interventions	Projected Year 3 Interventions	Implementation Partner (Please select one partner from the dropdown list per row)	Partner Role(s) and Resources
Prevent Chronic Diseases	Focus Area 1: Healthy eating and food security	Goal 1.1 Increase access to healthy and affordable foods and beverages	Establish a Chronic Disease Prevention Team by December 31, 2020	Individuals in need of healthier food options to aid in chronic disease prevention and reversal	Develop a team: Cornell Cooperative Ext., Cayuga Onondaga BOCES Culinary Program, Cayuga Community College Culinary Program, Dietician, Humane Society representative	Number and dates of meetings. Number of strategies identified to create an action plan	Work with Cayuga County Health Department (CCHD) to develop a listing of who should be involved with the Chronic Disease Prevention Team. Hold at least one meeting by the end of 2020 and create an action plan.	Work with the Chronic Disease Prevention Team to create and implement an action plan. The action plan strategies will be reviewed and evaluated at the meetings.	Evaluate action plans, strategies, and implementation progress.	Hospital	Auburn Community Hospital (ACH) will facilitate in conjunction with the Cayuga County Health Department (CCHD) to bring the Chronic Disease Prevention Team together with the community partners for evaluation and implementation.
Prevent Chronic Diseases	Focus Area 1: Healthy eating and food security	Goal 1.1 Increase access to healthy and affordable foods and beverages	Increase and promote healthier food options available through community programs.	Individuals in need of healthier food options to aid in chronic disease prevention and reversal	Work with the Food Sense program and local food pantries; Work with the Senior Nutrition Program and Summer Feeding Program.	Efforts to evaluate current offerings and options for providing healthier food.	Chronic Disease team and community partners will analyze and evaluate current offerings, options, and barriers for obtaining food.	Work with community programs to provide healthier options.	Evaluate action plans, strategies, and implementation progress.	Hospital	Auburn Community Hospital (ACH) will facilitate in conjunction with the Cayuga County Health Department (CCHD) to bring the Chronic Disease Prevention Team together with the community partners for evaluation and implementation.
Prevent Chronic Diseases	Focus Area 1: Healthy eating and food security	Goal 1.1 Increase access to healthy and affordable foods and beverages	Increase and promote healthier food options available at local restaurants.	Individuals in need of healthier food options to aid in chronic disease prevention and reversal	Work with local restaurants for a Dining Week with healthy options.	Efforts to evaluate current offerings and options for providing healthier food.	Work with the Chronic Disease Prevention Team to evaluate current offerings and options at local restaurants.	Work with local restaurants to provide healthier options.	Host a kick-off celebration and promotion for restaurants that offer healthier options during Dining Week.	Business	Auburn Community Hospital (ACH) will facilitate in conjunction with the Cayuga County Health Department (CCHD) to solicit restaurants for their participation in this project.
Prevent Chronic Diseases	Focus Area 1: Healthy eating and food security	Goal 1.2 Increase skills and knowledge to support healthy food and beverage choices	Increase the percentage of adults with skills and knowledge to make healthier food choices.	Individuals in need of healthier food options to aid in chronic disease prevention and reversal	Offer educational seminars and workshops with topics to include: shopping and eating healthy on a budget or with WIC and SNAP benefits; how to shop at a farmers' market; freezing and canning; gardening workshops.	Number of educational seminars and workshops offered. Number of people attending.	Use of already created freezing and canning demonstration videos. Offer farmers' market tours during summer months for participants on WIC, SNAP and senior nutrition. Program.	Launch campaign; promoting how to preserve produce grown in the summer months so that we have access to those foods all year long, how to make healthier beverage choices.	Evaluate strategies, implementation progress and campaign.	Other (please describe partner and role)	Locally, our Cornell Cooperative Extension has a wealth of resources from Master Gardeners to a nutrition educator who specializes in this work. Auburn Community Hospital and Cayuga County Health Department will expand upon the work already in place through public health nutrition programs and augment/extend this work to the community at large.
Prevent Chronic Diseases	Focus Area 1: Healthy eating and food security	Goal 1.3 Increase food security	Decrease the number of Cayuga County residents that are food insecure	Individuals, especially low-income, in need of healthier food options to aid in chronic disease prevention and reversal	Screen for food insecurity, facilitate and actively support referral.	Creation of screening tool. Establishment of referral process. Number of practices referring. Number of referrals made.	Assess interest in implementing a screening tool in pediatric and family care practices. Finalize a screening tool to be used. Determine what the referral process would be if a patient is food insecure and what staff are responsible for follow-up.	Train staff on use of the referral in practices that express interest as a pilot project. Begin making referrals. Evaluate effectiveness and make changes if necessary.	Expand to other practices in the community. Continue evaluating strategies and implementation progress.	Hospital	Auburn Community Hospital (ACH) will facilitate in conjunction with the Cayuga County Health Department (CCHD) to develop screening tool and referral process. ACH provider practices will be targeted.
Prevent Chronic Diseases	Focus Area 4: Preventive care and management	Goal 4.3 Promote evidence-based care to prevent and manage chronic diseases including asthma, arthritis, cardiovascular disease, diabetes and prediabetes and obesity	Promote an evidence-based care program for the providers in the community to prevent and reverse chronic diseases.	Patients of providers in need of evidence-based aid for chronic disease prevention and reversal	Collaborate with the Lifestyle Medicine Program out of the University of Rochester to offer an educational seminar(s) to healthcare providers in the community.	Number and dates of meetings. Number of strategies identified to create an action plan. Number and dates of seminars offered.	Work with the Lifestyle Medicine Program to offer the program by the end of 2020. Goal would be to introduce this concept to local providers and see if providers would be interested in more education or offering this to their patients.	Look to pilot a program in one practice locally. Provide additional seminars and workshops for providers.	Evaluate action plans, strategies, and implementation progress.	Hospital	Auburn Community Hospital (ACH) will facilitate in conjunction with the Cayuga County Health Department (CCHD), community partners, and the Lifestyle Medicine Program for evaluation and implementation.
Prevent Chronic Diseases	Focus Area 4: Preventive care and management	Goal 4.4 In the community setting, improve self-management skills for individuals with chronic diseases, including asthma, arthritis, cardiovascular disease, diabetes and prediabetes and obesity	Increase the percentage of adults with chronic conditions (arthritis, asthma, CVD, diabetes, CKD, cancer) who have taken a course or class to learn how to manage their condition	Older adults, individuals on Medicaid, African Americans and Hispanics.	Establish a referral system and actively refer patients to the evidence-based care programs in the community. Expand access to evidence-based self-management interventions for individuals with chronic disease and expand access to the National Diabetes Prevention Program.	Number of referrals received and from which practices. Number and dates of meetings. Number of strategies identified to create an action plan.	Work with community-based organizations which offer the evidence-based care programs to provide informational sessions to providers about the programs and some success stories. Establish a referral process and system.	Promote and support the programs available in the community. Look at ways to expand offerings to other areas of the county.	Evaluate action plans, strategies, and implementation progress.	Hospital	Auburn Community Hospital (ACH) will facilitate in conjunction with the Cayuga County Health Department (CCHD), community partners, and the Lifestyle Medicine Program for evaluation and implementation.

Priority	Focus Area	Goal	Objectives	Disparities	Interventions	Family of Measures	Projected (or completed) Year 1 Interventions	Projected Year 2 Interventions	Projected Year 3 Interventions	Implementation Partner (Please select one partner from the dropdown list per row)	Partner Role(s) and Resources
Promote Healthy Women, Infants and Children	Focus Area 3: Child and Adolescent Health, including children with special health care needs (CSHCN)	Goal 3.3: Reduce dental caries among children	Establish a Dental Task Force by December 31, 2020	Children, especially low-income Poverty Lack of insurance/ Limited access to providers that accept insurance (Medicaid) Education level	Recruit health and dental care providers, the local Medical and Dental Societies, local elected officials, school representatives and community-based organizations to establish a dental task force.	Number and dates of meetings. Number of strategies identified to create an action plan.	Work with Auburn Community Hospital to develop a listing of who should be involved with a dental task force. Research what other communities in New York State have accomplished or challenges they have faced. Hold at least one dental task force meeting by the end of 2020 and start creating an action plan..	Work with dental task force to create and implement an action plan. The action plan strategies will be reviewed and evaluated at dental task force meetings.	Evaluate action plans strategies and implementation progress.	Local health department	Cayuga County Health Department (CCHD) will facilitate the establishment of and coordination of dental task force meetings. CCHD will work with Auburn Community Hospital (ACH) to recruit members, support this project and develop strategies within the hospital-owned practices to improve oral (dental) health care. The FQHCs will also provide information and feedback to CCHD and ACH.
Promote Healthy Women, Infants and Children	Focus Area 3: Child and Adolescent Health, including children with special health care needs (CSHCN)	Goal 3.3: Reduce dental caries among children	Increase the number of Cayuga County residents served by community water systems that have optimally fluoridated water.	Children, especially low-income Poverty Lack of insurance/ Limited access to providers that accept insurance (Medicaid) Education level	Assess the community water systems interest and capability of adding fluoride to the water.	Number and dates of meetings with community water systems. Number of systems interested in exploring fluoride.	Explore why the community water systems do not have fluoride/do not want fluoride (system not capable, cost, community push-back, etc.) Assess the interest of community water systems that do not have fluoride. Explore funding opportunities.	Hold meetings with the community water systems to educate them on adding fluoride to the water and the funding opportunities that may be available. Explore if a public water system needs a public vote to add fluoride.	Evaluate feedback from previous years. If needed take a new approach.	Local governmental unit	Cayuga County Health Department (CCHD) and Auburn Community Hospital (ACH) will work to identify key stakeholders from local municipalities to offer information on the dental needs in the community and the benefits of community fluoridated water systems.
Promote Healthy Women, Infants and Children	Focus Area 3: Child and Adolescent Health, including children with special health care needs (CSHCN)	Goal 3.3: Reduce dental caries among children	Implement the use of fluoride varnish application in at least one primary care/pediatric office by March 31, 2021.	Young children, especially low-income (lack of dental providers willing to see young children, less than 3 years of age) Poverty Education level of parents	Offer educational workshop on the benefits of fluoride varnish application in the primary care/pediatric office setting. Recruit a primary care/pediatric office to deliver this service.	Dates of education/engagement with providers. Number of providers who implement varnish in their practice.	Educate and engage with pediatric offices to encourage implementation of fluoride varnish in their practice. Recruitment of one practice as a pilot project to begin delivering fluoride varnish.	Evaluate the progress of implementation. Recruit other practices to begin delivering this service.	Evaluate the number of provider offices who are delivering fluoride varnish.	Providers	Auburn Community Hospital will solicit one of their primary care offices as a pilot project for the delivery of fluoride varnish to their pediatrics patients. Cayuga County Health Department will support ACH and will recruit other providers, possibly a local FQHC to offer fluoride varnish.
Promote Healthy Women, Infants and Children	Focus Area 3: Child and Adolescent Health, including children with special health care needs (CSHCN)	Goal 3.3: Reduce dental caries among children	Expand the delivery of fluoride varnish application to a community-based site by December 31, 2020.	Young children, especially low-income (lack of dental providers willing to see young children, less than 3 years of age) Poverty Education level of parents	Work with Cayuga County School-Based Dental Program to expand the use of fluoride varnish to daycare centers, Head Start classrooms and preschool/Universal 3PK and 4PK programs.	Number and dates of meetings with School-Based Dental Program. Number of community-based sites implementing. Number of children receiving fluoride varnish.	Explore the opportunity to expand fluoride varnish applications in early childcare/education settings in the community. Work with the School-Based dental program to see if they could expand fluoride varnish application to daycare centers that are open year round to not interfere with school-based dental services.	If expansion is possible, solicit community-based sites to assess interest. Evaluate the status or progress.	If no progress being made, implement a new approach.	Federally qualified health care center	Cayuga County Health Department (CCHD) and Auburn Community Hospital (ACH) will work with local FQHC, who also administers the School-Based Dental grant to discuss potential opportunities for collaboration and expansion, specifically of the fluoride varnish application in early childcare/education settings.

Priority	Focus Area	Goal	Objectives	Disparities	Interventions	Family of Measures	Projected (or completed) Year 1 Interventions	Projected Year 2 Interventions	Projected Year 3 Interventions	Implementation Partner (Please select one partner from the dropdown list per row)	Partner Role(s) and Resources
Promote Healthy Women, Infants and Children	Focus Area 3: Child and Adolescent Health, including children with special health care needs (CSHCN)	Goal 3.3: Reduce dental caries among children	Decrease the percentage of third-grade children with evidence of untreated tooth decay.	Children, especially low-income Poverty Lack of insurance/ Limited access to providers that accept insurance (Medicaid) Very long wait lists for those providers who do accept Medicaid or those with no health insurance. Education level	Continue to support and work with Cayuga County School-Based Dental Program to expand full-service dental and the application of sealants to more Cayuga County schools.	Efforts to evaluate current offerings and capacity to enhance or expand. Number of additional schools providing sealants to students through the School-Based dental program	Evaluation of current number of students being served in the school setting. Evaluation of the services provided in each school and analysis on capacity to expand offerings within each school or to other schools. Seek funding if necessary.	Based on evaluation results, develop a plan to work on increasing access to services with a goal of reducing caries. Other community prevention strategies (fluoride varnish and increasing number of local dentists) will also have impacts on reducing dental caries if implemented.	Assess progress.	Federally qualified health care center	Cayuga County Health Department and Auburn Community Hospital will work with East Hill Family Medical (FHHC) to evaluate current full-service and school-based dental programs in the community. Discussions and support of enhancements or expansions will take place.
Promote Healthy Women, Infants and Children	Focus Area 3: Child and Adolescent Health, including children with special health care needs (CSHCN)	Goal 3.3: Reduce dental caries among children	Increase the number of dentists (pediatric dentists) in the community accepting patients with Medicaid.	Children and families, especially low-income Poverty Lack of insurance/ Limited access to providers that accept insurance (Medicaid) Very long wait lists for those providers who do accept Medicaid or those with no health insurance. Education level	Support funding applications to expand capacity of providers in community. Explore Auburn Community Hospital hiring a dentist.	Date grant application was submitted. Number of successful funding applications received. Efforts made by Auburn Community Hospital to explore hiring. Number of existing providers now offering to accept patients with Medicaid. Start date of newly hired dentists.	Support the Innovation funding application through CNY Cares (DSRIP) to be made by East Hill Family Medical in order to renovate exams rooms that would allow for an additional dental provider to be added to their staff. Currently there is a 450 person wait list. Discussion on soliciting other sources of funding if this application is not successful. Update listing of dental providers and which insurances they participate with annually.	Explore additional strategies (Can Auburn Community Hospital hire a pediatric dentist) to reduce wait lists and get more people into preventative dental care. Update listing of dental providers and which insurances they participate with annually.	Research other communities that have primary medical care and dental care in the same office/building and see if any providers in the community would be looking to partner. Update listing of dental providers and which insurances they participate with annually.	Federally qualified health care center	Cayuga County Health Department and Auburn Community Hospital will support East Hill Family Medical's (FHHC) grant application. Cayuga County Health Department will facilitate discussion around bringing a pediatric dentist to the community.
Promote Healthy Women, Infants and Children	Focus Area 3: Child and Adolescent Health, including children with special health care needs (CSHCN)	Goal 3.3: Reduce dental caries among children	Develop, implement and promote a oral/dental health campaign across community programs and on social media.	Children and families, especially low-income Poverty Lack of insurance/ Limited access to providers that accept insurance (Medicaid) Education level	Integrate oral health messages and evidence-based prevention strategies within community-based programs serving women, infants, and children.	Dates of meetings with community-based programs. Educational messaging that is agreed up to use. Dates of implementation. Social media campaign results.	Meet and strategize about our messaging. Reinforce the importance of all sharing the same message with clients and patients. Develop a year long calendar, with messaging related to oral/dental care each month to remind the public of the importance. Seek funding to launch a paid campaign.	Evaluate the messgaing and the intergration of the messaging across community partners. Increase the number of partners participating in the campaign. Make changes if necessary and re-launch. If no funding awarded, continue utilizing partnerships to disseminate the messages.	Evaluate the progress.	Community-based organizations	Cayuga County Health Department and Auburn Community Hospital will identify community programs that serve women, infants and children. Meetings will be held with those programs to integrate messaging and support the initiative.
