Auburn Community Hospital & Cayuga County Health Department Update on Health Care Needs Assessment Survey.

For Immediate Release – Auburn Community Hospital (ACH) and the Cayuga County Health Department launched community-wide health survey one month ago as part of a comprehensive community health needs assessment.

As of Friday, September 30, 2022 over 1,000 Cayuga County residents have completed the survey and provide both of our organizations with feedback that will be used to help healthcare leaders develop a strategic plan to aid in improving and advancing the local healthcare services while also connecting people to community-based services and resources.

Thank you to those of you who have taken time to complete the survey. For those of you who have not, there is still time to take the survey and we need to hear from more of you! We want to hear from more residents in Fair Haven, Genoa, Jordan, Martville, Meridian, Montezuma, Red Creek, Scipio Center, Sterling and Venice Center.

The survey is available in English and Spanish and will take about 15 minutes to complete, and can be found at <http://rmsresults.com/CayugaCHA>. Check with your Town/Village or library to see if they have hard copies.

Please spread the word about our survey and help us hear from residents in each of our towns and villages.
