Auburn, NY 13021

For Immediate Release: Monday, November 7, 2022

Upcoming COVID-19 Vaccine Clinics

The Cayuga County Health Department will be hosting two COVID-19 vaccine clinics. The first will be held on Wednesday, November 9, 2022 from 4pm – 6pm and the second will be held on Tuesday, November 15, 2022 from 4pm – 6pm. The clinic will be offering the bivalent boosters of Pfizer (ages 12 and older) and Moderna (ages 18 and older) as well as first and second doses of Novavax.

New bivalent booster doses of Pfizer and Moderna are currently recommended for individuals at least 2 months after completing a COVID-19 primary series and/or any previous booster doses.

Novavax is a new primary series vaccine recommended for individuals who have not yet received a COVID-19 vaccine. It is a 2-dose vaccine series with the 2nd dose being administered 3-8 weeks after the 1st dose.

Appointments will be required and can be made on our website:

www.cayugacounty.us/health by clicking the COVID-19 Vaccine Clinic button.

Vaccines being offered include:

- **Bivalent booster dose of Pfizer** – approved for individuals 12 years and older
- **Bivalent booster dose of Moderna** – approved for individuals 18 and older
- **First dose of Novavax** – approved for individuals 12 years and older
- **Second dose of Novavax** – approved for individuals 12 years and older

Both clinics will be held at the Fingerlakes Mall (located at 1579 Clark St., Auburn) in the Event Center (located on the backside of the mall near the movie theaters). Entrance to this clinic is from the outside of the mall. There will not be admittance to the clinic from the inside of the mall. **Please park in the back of the mall and enter through the Event Center doors.**

Anyone entering the clinic must be wearing a mask. Please bring your insurance card and vaccine card if you have one.

The availability of the vaccine is not limited to just the health department. Individuals are encouraged to work with local pharmacies, federally qualified health centers, and healthcare providers to get an appointment. Parents looking for the COVID-19 vaccine for children under 5 years of age should contact their child's pediatrician or local pharmacy.

The Cayuga Community Health Network (315-252-4212) is available to assist individuals with finding clinics and making appointments. For more information about the COVID-19 vaccine, visit **www.cayugacounty.us/health**.
