## CAYUGA COUNTY POLICY

**DEPARTMENT:** Buildings & Grounds

**POLICY TITLE:** Building Policies

**EFFECTIVE DATE:** 7-27-22

**RESOLUTION NO.:** 280-22

**SUPERSEDES POLICY OF:** 5/25/10 Res 255-10

**Objective:** To be cost conservative as well as recognizing the human element, when setting and controlling building temperatures.

**Policy:**

- A. Each building will be set to maintain 68°F in the heating season and 76°F in the cooling season.
  1. Some buildings have multiple heating/cooling zones, which for their inherent mechanical differences may make some areas warmer or cooler than others, but all attempts will be made to be consistent.
  2. When a majority of a building or zone runs at the set temperature any area that is in that building or zone with a + or - of 2° of the set temperature will be deemed to be an acceptable temperature.
- B. No electric space heaters are allowed, except when the following criteria have been met:
  1. When a written complaint is filed about an area of a building being too cold or too hot, the Cayuga County Building Maintenance Supervisor will monitor the area for one week to track the temperatures. If the parameters set in the above section "A" cannot be met by further adjustment to the heating/ cooling system, the Building Maintenance Supervisor will provide an alternate heating.
  2. When an electric heater is allowed, it is not allowed to be under a desk or any other confined area. The electric heater must be kept in a position so as to not create a tripping hazard or where papers or other combustibles may fall on it.
  3. The Building Maintenance Supervisor will remove any unauthorized electric heater and upon request of the owner, will be returned and taken home
- C. Windows will not be allowed opened when the building has a fully automated heating/cooling system. Opened windows can cause an imbalance of the system causing it to overheat or over cool the zone.
  1. If a window is observed or reported open, the Building Maintenance Supervisor will notify in writing the occupant of the room to keep the window closed.

2. If an occupant continues to open the window after notification the Building Maintenance Supervisor may turn that particular zone off to conserve energy and tax dollars.
