Boil Water Advisory LIFTED

The Cayuga County Health Department has lifted the Boil Water Advisory for the residents of the Village of Cato and others users of the Village of Cato's water supply.

On Saturday, January 26, 2019, there was a loss in pressure due to a water line repair. When this occurs, there is an increased likelihood that untreated water and harmful microbes can enter your drinking water. Water samples collected yesterday confirm that there is no contamination in the distribution system. Residents may resume using the water without boiling first.

For further information, you may contact the Village of Cato at 315-626-2397 or the Cayuga County Health Department at 315-253-1560.
