

**9.34 VILLAGE OF WEEDSPORT**

This section presents the jurisdictional annex for the Village of Weedsport.

**A.) HAZARD MITIGATION PLAN POINT OF CONTACT**

Primary Point of Contact	Alternate Point of Contact
<p><a href="#">Name: Jean B. Saroodis, Mayor</a>  <a href="#">Address: 8892 South St, PO Box 190, Weedsport, NY 13166</a>  <a href="#">Phone Number: 315-838-6634</a>  <a href="#">Fax Number:</a>  <a href="#">Email address: vweedsport@weedsport.com</a></p>	<p><a href="#">Name: Jim Saroodis, Superintendent of Public Works</a>  <a href="#">Address: 8892 South St, PO Box 190, Weedsport, NY 13166</a>  <a href="#">Phone Number: 315-283-0345</a>  <a href="#">Fax Number: 315-834-9110</a>  <a href="#">Email address: dpw@weedsport.com</a></p>

**B.) PROFILE**

**Population**

According to the 2010 U.S. Census, the estimated Village of Weedsport population was 1,815. The Village of Weedsport is one of the 9 villages in Cayuga County.

**Location**

The Village of Weedsport is located in east-central Cayuga County, and lies in the northern part of the town of Brutus.

**Brief History**

The Village of Weedsport was originally part of the Central New York Military Tract, and was first settled as a part of the Town of Brutus in 1802. The Village was first known as “Weed’s Basin” as it was home to a boat turn-around, or basin, on the Erie Canal built by the Weed brothers, who were early settlers of the area. The village was incorporated in 1831, and in 1839, the Auburn and Syracuse Railroad line became operational through the village connecting Rochester to Syracuse, through the City of Auburn (Hopkins, 1933).

**Governing Body Format**

Home rule is strong in New York State and thus, each town and village has its own governing body. Towns are made up of a Town Board and Supervisor. The Villages all have a Village Mayor, Clerk, and Village Board. Along with town and village roads, any public water and sewer systems are operated by the local municipality, though they may cooperate with County departments. Each municipality has charge over its own planning and zoning and uses the County personnel as a resource (Cayuga County, 2010).

**Growth/Development Trends**

The following table summarizes major residential/commercial development and major infrastructure development that are identified for the next five (5) years in the municipality. Refer to the map in section I.) of this annex which illustrates the hazard areas along with the location of potential new development.

New Development/Potential Development in Municipality				
Property Name	Type (Residential or Commercial)	Number of Structures	Address	Description/Status
Village Heights	Residential	33	Rosewood Circle Dorothy Court	33 vacant lots to be sold
Fire house/ Municipal and Court/ Police Compound	Public	1	South St	In planning stage

Note: Please refer to Section I for new development location information.

**C.) NATURAL HAZARD EVENT HISTORY**

Cayuga County has a history of natural hazard events as detailed in Volume I, Section 5 of this plan. A summary of historical events is provided in each of the hazard profiles and includes a chronology of events affecting the County and its municipalities. Below is presented a summary of historical events to indicate the range and impact of natural hazard events in the County. Specific damages have been indicated if available from reference or local sources.

Type of Event	FEMA Disaster # (if applicable)	County Designated?	Date	Approximate Damage Assessment
Flood in Moravia	-	-	6/1/1905	Severely damaged Moravia business district
Steamship Frontenac fire south of Union Springs	-	-	6/27/1907	8 deaths
Severe flooding	-	-	4/1916	along Cayuga Lake
Spanish Influenza	-	-	1918 – 1919	nearly 100 deaths in Cayuga County
Riots at Auburn Prison	-	-	1929	11 deaths, 3 firefighters injured
Hislops fire in Auburn	-	-	12/1931	Destroyed a block of downtown, 1 firefighter killed
Floods in Moravia & Locke	-	-	7/1/1935	Floods in Moravia & Locke
Gasoline leak & explosion in Auburn	-	-	3/30/1960	Killed 5 including 3 firefighters
Gasoline spill in Auburn	-	-	9/ 1960	17,000 gallon gasoline spill at Drake Oil
Gasoline spill	-	-	5/1966	8,500 gallon gasoline spill at Sinclair bulk terminal in Auburn
Dutch Elm	-	-	1960's	Disease kills thousands of trees in City and Villages
Tropical Storm Agnes.	DR-338	Yes IA, PA	6/1972	Auburn's Mill Street dam washed out, Owasco Lake dam

**SECTION 9.34: VILLAGE OF WEEDSPORT**

Type of Event	FEMA Disaster # (if applicable)	County Designated?	Date	Approximate Damage Assessment
				weakened, Cayuga Lake rises 1.25 feet higher than 1916 level
High Winds/Wave Action/Flooding	DR-367	Yes IA, PA	3/21/1973	
Gasoline tanker	-	-	4/10/1975	Crashed in Locke, fire destroys 11 buildings
Hurricane Eloise /Severe Storm, Heavy Rain, Landslide/Flooding	DR-487	Yes IA, PA	9/1975	Caused severe damage in Moravia and Locke
10,000 gallon gasoline spill at Agway in Auburn	-	-	9/11/1977	
Ice Jam in Port Byron	-	-	2/1979	Evacuated homes and closes schools
Flooding in Moravia and Locke	-	-	10/1981	"worse than Agnes or Eloise"
Radiation incident at Austeel (dental scrap)	-	-	1980's	
Blizzard followed by lake and river flooding in April	EM-3107	Yes PA	3/17/1993	Blizzard followed by lake and river flooding in April
Dunn & McCarthy fire in Auburn.	-	-	11/1993	
Ice jam flooding in Port Byron	-	-	1/ 1994	Evacuated homes and closes schools.
County-wide flooding	DR-1095.	Yes IA, PA	1/19/1996	1 death (MVA).
Street flooding in Moravia and Locke (Fed. declared disaster in Tompkins).	DR-1148	No	11/1996	
Tornado(s) in Niles and Moravia (Fed. declared disaster elsewhere).	DR-1222 DR1233	No	Summer 1998	
Labor Day storm.	DR-1244	Yes IA, PA	9/1998	
Genoa issues emergency water restrictions, USDA declared drought (#0329).	-	-	8/1999	
Road flooding in King Ferry (Fed. declared disaster elsewhere).	-	No	6/2000	
Flood	-	-	5/2002	Road flooding in Union Springs and Meridian.

**SECTION 9.34: VILLAGE OF WEEDSPORT**

Type of Event	FEMA Disaster # (if applicable)	County Designated?	Date	Approximate Damage Assessment
Landslide along Seneca River near Cross Lake in Town of Cato.	-	-	2/2003	
Ice storm, 3 deaths in Cayuga County. Federally declared disaster DR-1467.	DR-1467	Yes IA, PA	4/2003	
NE blackout. Federally declared emergency EM-3186.	EM-3186	Yes PA	8/23/2003	
Snow emergency declared, EM-3195.	EM-3195	Yes PA	1/2004	
Flooding triggered by snow melt and rain, Federally declared disaster DR-1589.	DR-1589	Yes PA	4/2005	Flooding required the use of sandbags for the Village. Flooding affected the Wastewater treatment plant.
Severe Storms and Flooding	DR 1650	No	June 26 2006 – July 1, 2006	
Severe Storms and Flooding	DR 1670	No	November 16-17, 2006	
April Nor'easter	DR 1692	No	April 18, 2007	
Severe Storms and Flooding	DR 1710	No	June 19, 2007	
Severe Storms and Flooding	DR 1857	No	August 9, 2009	
Severe Storms and Flooding	DR 1993	No	April 26, 2011 – May 8, 2011	
Severe Storms and Flooding	EM 3328	No	August 26, 2011	
Hurricane Irene	DR 4020	No	August 26, 2011 – September 5, 2011	
Severe Storms, Flooding, Tornadoes, and Straight-line Winds	EM 3341	No	September 7-8, 2011	
Remnants of Tropical Storm Lee	DR 4031	No	September 7-11, 2011	

Note: N/A = Not applicable

The village reported they had no reportable damage or losses during the 4/2005 flooding event due to the use of sandbags. The Village also incurred no cost for this emergency protective measure because the labor of filling the sandbags was provided by inmates and Cayuga County furnished the bags.

D.) NATURAL HAZARD RISK/VULNERABILITY RISK RANKING

Hazard type	Estimate of Potential Dollar Losses to Structures Vulnerable to the Hazard <sup>a, c</sup>	Probability of Occurrence	Risk Ranking Score (Probability x Impact)	Hazard Ranking <sup>b</sup>
Flood	1% Annual Chance: \$1,324,260 0.2% Annual Chance: \$2,001,414	Frequent	42	High
Severe Storm	100-Year MRP: \$0 500-Year MRP: \$22 Annualized Loss: \$77	Frequent	18	Medium
Severe Winter Storm	1% of GBS: \$748,897 5% of GBS: \$3,744,485	Frequent	48	High
Transportation	Not available	Rare	7	Low
Ground Failure	Karst Exposure \$0 Moderate Incidence \$0 Moderate Susceptibility \$0	Rare	6	Low

- a. Building damage ratio estimates based on FEMA 386-2 (August 2001)
- b. High = Total hazard priority risk ranking score of 30 and above  
Medium = Total hazard priority risk ranking of 15-29  
Low = Total hazard risk ranking below 15
- c. The valuation of general building stock and loss estimates was based on custom inventory for Cayuga County.
- d. Loss estimates for the severe storm and severe winter storm hazards are structural values only and do not include the value of contents.
- e. Loss estimates for the flood hazard represents both structure and contents.

**E.) CAPABILITY ASSESSMENT**

This section identifies the following capabilities of the local jurisdiction:

- Legal and regulatory capability
- Administrative and technical capability
- Fiscal capability
- Community resiliency
- Community political capability
- Community classification.

The town indicates that it has moderate planning, regulatory, community resiliency, and community political capability and limited administrative, technical, and fiscal capabilities; with a very willing political capability to enact policies or programs to reduce hazard vulnerabilities in the community.

**E.1) Legal and Regulatory Capability**

Regulatory Tools (Codes, Ordinances., Plans)	Do you have this? (Y or N)	Enforcement Authority	Code Citation (Section, Paragraph, Page Number, Date of adoption)
1) Building Code	X	Village Zoning Officer	6/9/2004
2) Zoning Ordinance	X	Village Zoning Officer	6/9/2004
3) Subdivision Ordinance	X	Village Joint Planning Board	4/7/1993
4) NFIP Flood Damage Prevention Ordinance	X	Zoning Officer	5/9/2007
4a) Cumulative Substantial Damages			
4b) Freeboard			
5) Growth Management			
6) Floodplain Management / Basin Plan			
7) Stormwater Management Plan/Ordinance			
8) Comprehensive Plan / Master Plan/ General Plan	X	Village of Weedsport and Town of Brutus	Expected Completion in 2013
9) Capital Improvements Plan			
10) Site Plan Review Requirements			
11) Open Space Plan			
12) Stream Corridor Management			

**SECTION 9.34: VILLAGE OF WEEDSPORT**

Regulatory Tools (Codes, Ordinances., Plans)	Do you have this? (Y or N)	Enforcement Authority	Code Citation (Section, Paragraph, Page Number, Date of adoption)
Plan			
13) Watershed Management or Protection Plan			
14) Economic Development Plan			
15) Comprehensive Emergency Management Plan			
16) Emergency Response Plan	X	Local or County	1980
17) Post Disaster Recovery Plan			
18) Post Disaster Recovery Ordinance			
19) Real Estate Disclosure Requirement		State	State Requirement
20) Other [Special Purpose Ordinances (i.e., critical or sensitive areas)]			

**E.2) Administrative and Technical Capability**

Staff/ Personnel Resources	Available (Y or N)	Department/ Agency/ Position
1) Planner(s) or Engineer(s) with knowledge of land development and land management practices	N	
2) Engineer(s) or Professional(s) trained in construction practices related to buildings and/or infrastructure	Y	Appointed by Village Board
3) Planners or engineers with an understanding of natural hazards	N	
4) NFIP Floodplain Administrator	N	
5) Surveyor(s)	N	
6) Personnel skilled or trained in "GIS" applications	Y	
7) Scientist familiar with natural hazards	N	
8) Emergency Manager	N	
9) Grant Writer(s)	N	
10) Staff with expertise or training in benefit/cost analysis	N	

**E.3) Fiscal Capability**

Financial Resources	Accessible or Eligible to use (Yes/No/Don't know)
1) Community Development Block Grants (CDBG)	Y low income
2) Capital Improvements Project Funding	Y
3) Authority to Levy Taxes for specific purposes	N
4) User fees for water, sewer, gas or electric service	Y water/sewer
5) Impact Fees for homebuyers or developers of new development/homes	N
6) Incur debt through general obligation bonds	N
7) Incur debt through special tax bonds	N
8) Incur debt through private activity bonds	N
9) Withhold public expenditures in hazard-prone areas	N
10) State mitigation grant programs (e.g. NYSDEC, NYCDEP)	N
11) Other	Local Fire Department needs plan to get help securing grants

#### E.4) Community Classifications

Program	Classification	Date Classified
Community Rating System (CRS)	N/A	
Building Code Effectiveness Grading Schedule (BCEGS)	N/A	
Public Protection	N/A	
Storm Ready	N/A	
Firewise	N/A	

N/A = Not applicable. NP = Not participating. - = Unavailable.

The classifications listed above relate to the community's effectiveness in providing services that may impact its vulnerability to the natural hazards identified. These classifications can be viewed as a gauge of the community's capabilities in all phases of emergency management (preparedness, response, recovery and mitigation) and are used as an underwriting parameter for determining the costs of various forms of insurance. The CRS class applies to flood insurance while the BCEGS and Public Protection classifications apply to standard property insurance. CRS classifications range on a scale of 1 to 10 with class one (1) being the best possible classification, and class 10 representing no classification benefit. Firewise classifications include a higher classification when the subject property is located beyond 1,000 feet of a creditable fire hydrant and is within 5 road miles of a recognized Fire Station.

Criteria for classification credits are outlined in the following documents:

- The Community Rating System Coordinators Manual
- The Building Code Effectiveness Grading Schedule
- The ISO Mitigation online ISO's Public Protection website at <http://www.isomitigation.com/ppc/0000/ppc0001.html>
- The National Weather Service Storm Ready website at <http://www.weather.gov/stormready/howto.htm>
- The National Firewise Communities website at <http://firewise.org/>

## F. MITIGATION STRATEGY

### F.1) Past Mitigation Actions/Status

The village designed, built, and began operation of a new wastewater treatment plant. The Office of Counter Terrorism completed a survey on the new wastewater treatment plant. No other mitigation actions have been undertaken, or incorporated into planning and land use mechanisms.

### F.2) Hazard Vulnerabilities Identified

The village wastewater plant has flooded in the past, however has not had any problems since the new WWTP has been up and running. Otherwise, no loss of buildings, vehicles, equipment, or property and no injuries due to natural hazards have been reported.

NFIP Summary

Municipality	# Policies (1)	# Claims (Losses) (1)	Total Loss Payments (2)	# Rep. Loss Prop. (1)	# Severe Rep. Loss Prop. (1)	# Polices in 100-year Boundary (3)	# Polices in 500-Boundary (3)	# Policies Outside the 500-year Flood Hazard (3)
Weedspport (V)	17	0	\$0	0	0	13	1	3

Source:

- (1) Policies, claims, repetitive loss and severe repetitive loss statistics provided by FEMA Region 2, in June 2012 using the “Comm\_Name”. These statistics are current as of June, 2012. Please note the total number of repetitive loss properties includes the severe repetitive loss properties.
- (2) Total building and content losses from the claims file provided by FEMA Region 2 (current as of June, 2012).
- (3) The policy locations used are based on the latitude and longitude provided by FEMA Region 2.

It is estimated that in the Village of Weedspport, 90 residents live within the 1% annual chance flood area (NFIP Special Flood Hazard Area). Of the municipality's total land area, 25.5% is located within the 1% annual chance flood area. \$9,754,542 (8%) of the municipality's general building stock replacement cost value (structure and contents) is located within the 1% annual chance flood area. There are 17 NFIP policies in the community. While there are 13 parcels located within the 1% annual chance flood area, there are only policies issues to property owners in the 1% annual chance flood area. FEMA has identified 0 Repetitive Loss (RL) including 0 Severe Repetitive Loss (SRL) properties in the municipality.

HAZUS-MH estimates that for a 1% annual chance flood, \$1,324,260 (1.1%) of the municipality's general building stock replacement cost value (structure and contents) will be damaged and 62 tons of debris could be generated. HAZUS-MH estimates the following damage and loss of use to critical facilities in the community as a result of a 1% annual chance flood event:

Critical Facilities Located in the 1-Percent and 0.2-Percent Annual Chance Flood Boundaries and Estimated Potential Damage

Name	Municipality	Type	Exposure		Potential Loss from 1% Flood Event			Potential Loss from 0.2% Flood Event		
			1% Zone	0.2% Zone	Percent Structure Damage	Percent Content Damage	Days to 100-Percent <sup>(1)</sup>	Percent Structure Damage	Percent Content Damage	Days to 100-Percent <sup>(1)</sup>
Weedspport Sewage	Weedspport (V)	WWTF	X							
Village of Weedspport	Weedspport (V)	Highway Department	X					5.35	29.02	NA

Source: HAZUS-MH 2.1

Note: C = City; NA = Not available; T = Town; V = Village; X = Facility located within the DFIRM boundary.

(1) HAZUS-MH 2.1 provides a general indication of the maximum restoration time for 100% operations. Clearly, a great deal of effort is needed to quickly restore essential facilities to full functionality; therefore this will be an indication of the maximum downtime (HAZUS-MH 2.1 User Manual).

(2) In some cases, a facility may be located in the DFIRM flood hazard boundary; however HAZUS did not calculate potential loss. This may be because the depth of flooding does not amount to any damages to the structure according to the depth damage function used in HAZUS for that facility type. The flood model does not estimate damages for HAZMAT facilities.

Please refer to the Hazard Profiles for additional vulnerability information relevant to this jurisdiction.

F.3) PROPOSED HAZARD MITIGATION INITIATIVES

Note some of the identified mitigation initiatives in Table F are dependent upon available funding (grants and local match availability) and may be modified or omitted at any time based on the occurrence of new hazard events and changes in municipal priorities.

Initiative	Mitigation Initiative	Applies to New and/or Existing Structures*	Hazard(s) Mitigated	Goals and Objectives Met	Lead and Support Agencies	Estimated Benefits	Estimated Cost	Sources of Funding	Timeline	Priority	Mitigation Category
VW-1	New security measures for the DPW and WWTP facilities	Existing	All	1-1	Office of Counter Terrorism	Medium	Medium	Homeland Security Grants	Short Term DOF	Medium	PP
VW-2	Identify and upgrade village drinking water infrastructure	N/A	Flood	1-1 1-3	Village	High	High	Federal, State and County funding	Long Term DOF	Medium	SP
VW-3	Joint Initiative with the Town of Brutus: Tree removal and other clearing, especially in the floodway of Cold Springs Brook. Starting at the Railroad property then going upstream about 500-1000-1500 feet above the senior care facility. This reduces flood risk to two critical facilities (treatment plant and senior care facility).	Both	Flood	1-5 1-6	Brutus and Weedsport; County	Medium to High	Medium	Municipal Budget, Grants	Short	High	NR
VW-4	Conduct and facilitate community and public education and outreach for residents and businesses to include, but not be limited to, the following to promote and effect natural hazard risk reduction: <ul style="list-style-type: none"> <li>Provide and maintain links to the HMP website, and regularly post notices on the County/municipal homepage(s) referencing the HMP webpages.</li> <li>Prepare and distribute informational letters to flood vulnerable property owners and</li> </ul>	N/A	All Hazards	2-1 2-2 2-3 2-4 2-5	Municipality with support from Planning Partners, County Planning, NYSOEM, FEMA	Medium	Medium	Municipal Budget, HMA programs with local or county match	Short Term	High	PE

**SECTION 9.34: VILLAGE OF WEEDSPORT**

SWCD	Cayuga County Soil and Water Conservation District
USACE	U.S Army Corp of Engineers
USGS	U.S. Geological Survey

**Costs:**

Where actual project costs have been reasonably estimated:

Low = < \$10,000

Medium = \$10,000 to \$100,000

High = > \$100,000

Where actual project costs cannot reasonably be established at this time:

Low = Possible to fund under existing budget. Project is part of, or can be part of an existing on-going program.

Medium = Could budget for under existing work-plan, but would require a reapportionment of the budget or a budget amendment, or the cost of the project would have to be spread over multiple years.

High = Would require an increase in revenue via an alternative source (i.e., bonds, grants, fee increases) to implement. Existing funding levels are not adequate to cover the costs of the proposed project.

**Benefits:**

Where possible, an estimate of project benefits (per FEMA’s benefit calculation methodology) has been evaluated against the project costs, and is presented as:

Low = < \$10,000

Medium = \$10,000 to \$100,000

High = > \$100,000

Where numerical project benefits cannot reasonably be established at this time:

Low = Long term benefits of the project are difficult to quantify in the short term.

Medium = Project will have a long-term impact on the reduction of risk exposure to life and property, or project will provide an immediate reduction in the risk exposure to property.

High = Project will have an immediate impact on the reduction of risk exposure to life and property.

**Potential FEMA HMA Funding Sources:**

PDM = Pre-Disaster Mitigation Grant Program

FMA = Flood Mitigation Assistance Grant Program

RFC = Repetitive Flood Claims Grant Program

SRL = Severe Repetitive Loss Grant Program

HMGP = Hazard Mitigation Grant Program

**Timeline:**

Short = 1 to 5 years. Long Term= 5 years or greater. OG = On-going program.

DOF = Depending on funding.

**Notes (for Mitigation Type):**

1. PR=Prevention: Government, administrative or regulatory actions or processes that influence the way land and buildings are developed and built Examples of these are acquisition, elevation, relocation, structural retrofits, storm shutters, and shatter-resistant glass.

2. PP= Property Protection: These actions also include public activities to reduce hazard losses or actions that involve (1) modification of existing buildings or structures to protect them from a hazard or (2) removal of the structures from the hazard area. Examples include planning and zoning, floodplain local laws, capital improvement programs, open space preservation, and storm water management regulations.
3. PE=Public Education and Awareness: Actions to inform and educate citizens, elected officials, and property owners about hazards and potential ways to mitigate them. Such actions include outreach projects, real estate disclosure, hazard information centers, and school-age and adult education programs.
4. NR=Natural Resource Protection: Actions that minimize hazard loss and also preserve or restore the functions of natural systems. These actions include sediment and erosion control, stream corridor restoration, watershed management, forest and vegetation management, and wetland restoration and preservation.
5. SP=Structural Projects: Actions that involve the construction of structures to reduce the impact of a hazard. Such structures include dams, setback levees, floodwalls, retaining walls, and safe rooms.
6. ES=Emergency Services: Actions that protect people and property, during and immediately following, a disaster or hazard event. Services include warning systems, emergency response services, and the protection of essential facilities.

## G.) PRIORITIZATION OF MITIGATION INITIATIVES

Initiative #	# of Objectives Met	Benefits	Costs	Do Benefits equal or exceed Costs? (Yes or No)	Is project Grant eligible? (Yes or No)	Can Project be funded under existing programs/budgets? (Yes or No)	Priority (High, Med., Low)
VW-1	1	M	M	Y	Y	N	M
VW-2	2	H	H	Y	Y	N	M
VW-3	2	M-H	M	Y	Y	Y	H
VW-4	5	M	M	Y	Y	N	H
VW-5	2	M	M	Y	Y	Y	M
VW-6	2	M	M	Y	Y	Y	M
VW-7	2	M	M	Y	Y	Y	M
VW-8	2	M	M	Y	Y	Y	M
VW-9	3	M	M	Y	Y	N	M
VW-10	1	L	L	Y	N	Y	H
VW-11	4	M	L	Y	N	Y	H
VW-12	1	M	M	Y	N	Y	M
VW-13	2	M	M	Y	Y	N	M
VW-14	2	H	L	Y	Y	N	H
VW-15	2	H	H	Y	Y	N	M
VW-16	4	H	L	Y	N	Y	H
VW-17	2	M	L	Y	N	Y	H
VW-18	2	M	M	Y	N	Y	M
VW-19	3	M	L	Y	N	Y	M
VW-20	2	M	L	Y	N	Y	H
VW-21	2	M	L	Y	N	Y	H
VW-22	2	M	L	Y	N	Y	H
VW-23	2	M	L	Y	N	Y	H

Notes: H = High. L = Low. M = Medium. N = No. N/A = Not applicable. Y = Yes.

**Explanation of Priorities**

High Priority = A project that meets multiple objectives (i.e., multiple hazards), benefits exceeds cost, has funding secured or is an on-going project and project meets eligibility requirements for the Hazard Mitigation Grant Program (HMGP) or Pre-Disaster Mitigation Grant Program (PDM) programs. High priority projects can be completed in the short term (1 to 5 years).

Medium Priority = A project that meets goals and objectives, benefits exceeds costs, funding has not been secured but project is grant eligible under, HMGP, PDM or other grant programs. Project can be completed in the short term, once funding is completed. Medium priority projects will become high priority projects once funding is secured.

Low Priority = Any project that will mitigate the risk of a hazard, benefits do not exceed the costs or are difficult to quantify, funding has not been secured and project is not eligible for HMGP or PDM grant funding, and time line for completion is considered long term (1 to 10 years). Low priority projects may be eligible other sources of grant funding from other programs. A low priority project could become a high priority project once funding is secured as long as it could be completed in the short term.

Prioritization of initiatives was based on above definitions: Yes

Prioritization of initiatives was based on parameters other than stated above: Not applicable.

**H.) FUTURE NEEDS TO BETTER UNDERSTAND RISK/VULNERABILITY**

No information at this time.

I.) HAZARD AREA EXTENT AND LOCATION

A hazard area extent and location map has been generated for the jurisdiction to illustrate the probable areas impacted within the municipality and is provided on the next page. This map is based on the best available data at the time of the preparation of this Plan, and is considered to be adequate for planning purposes. Maps have only been generated for those hazards that can be clearly identified using mapping techniques and technologies, and for which the jurisdiction has significant exposure. The Planning Area maps are provided in the hazard profiles within Section 5.4, Volume I of this Plan.

J.) ADDITIONAL COMMENTS

No additional comments at this time.

**K.) NFIP ADMINISTRATOR INPUT**

**1. Planning and Regulatory**

The Village of Weedsport joined the NFIP on April 1, 1982, and is currently an active member of the NFIP. Current Flood Insurance Rate Maps have been in effect for the community since August 2, 2007. The Village of Weedsport is proactive in floodplain management with ordinances meeting minimum requirements.

**2. Administrative and Technical Staff**

The Village of Weedsport has identified personnel to manage and uphold the village's compliance with the NFIP. Dedicated staff include: Tim Ganey , Zoning Officer and NFIP Administrator.

**3. Financial**

As of June, 2012 there 17 policies enforced within the Village of Weedsport. Of the 17 insurance policies, 13 are within the Special Flood Hazard Area (SFHA), and 4 are located outside the SFHA. Repetitive loss insurance claims have not been reported within the village. As of June, 2012 there have been 0 repetitive loss properties and 0 severe repetitive loss properties within the Village of Weedsport.

**4. Educational**

None at this time.

**5. Actions to Strengthen the Program**

None at this time.
